

SERVICE DES LANGUES

19th April 2019

To whom it May Concern:

I am delighted to provide this letter for Joris Placette in recognition of his hard work over the second year of his undergraduate degree program here at UGA.

In the undergraduate English for Scientific Purposes Program, English is the language used for both written and spoken course work, and Joris has not experienced any problems in this subject.

As well, he has undertaken to join the Bilingual Group, which focused on spoken science communication in English in the 4th semester. It is likewise conducted in English only, and he has done extremely well, participating with thoughtful and relevant comments.

Joris Placette is passionate about science and its possibilities for society. He is also acutely aware that in order to achieve his goals, he will need to have strong linguistic skills. He is well on the way to fulfilling this with his candidature for the program at your establishment.

I would be very happy to answer any other questions regarding this student.

Yours faithfully,

Erin Cross
